

A Vision For The Future

“In the Arctic, we are blessed to live in one of the most unique and wonderful places on earth, where the Iñupiat have thrived for thousands of years using our values as our guide.

Healthy people means healthy communities, and so my vision for the future is an Arctic where we continue to prioritize family, culture and self-sufficiency alongside wellness, social programs and higher education opportunities that prepare our people for an even healthier tomorrow.”

- Marie Carroll

PRESIDENT/CEO, ARCTIC SLOPE NATIVE ASSOCIATION
