

# A Vision For The Future

“Atautchimukta means ‘let us unite as one.’ In unity there is strength, and strength allows us to overcome any challenge or obstacle.

My vision for the future is an Arctic where our communities, borough, tribal organizations, regional and village corporations, and all North Slope entities unite and speak as one. A future where everyone works together in unison for the betterment of all our people”

*- Harry K. Brower, Jr.*
